

WORKS NOTIFICATION

New Eurobodalla Regional Hospital

7 June 2024

Dear neighbour,

**RE: Eurobodalla Regional Hospital – Soil Conservation Works – Review of Environmental Factors
05/2023**

We are writing to inform you that site establishment work for the new Eurobodalla Regional Hospital is scheduled to start on the week commencing Monday 17 June 2024. This work is expected to last several months, weather permitting, and will lead into the main hospital works.

Soil conservation and construction works around the site will be carried out to facilitate access. This involves installing sediment control measures as well as undertaking initial civil works.

Work will be conducted between 7am and 6pm Monday to Friday, and on Saturdays between 8am and 1pm, if required. Work will not occur on Sundays or public holidays.

All contractors and visitors will access the site from the Princes Highway and park within the site. We do not anticipate any disruption to nearby properties, access routes, or local services such as energy, gas, and water during the early works phase.

We will continue to keep you informed through regular letterbox drops, meetings and via the project website: www.eurobodallahs.health.nsw.gov.au
